## **Education**

In the moment I am in the last year of my master studies of Mathematical Linguistics at Charles University in Prague and I am going to start writing my master thesis soon.

Following institutions have contributed to my education so far:

- Charles University in Prague, Faculty of Mathematics and Physics, Computer Science (master), program Mathematical Linguistics (2008 – now, targeting in graduation in 2011)
- Universitat des Saarlandes, Saarbrucken (Germany), Department of Computational Linguistics & Phonetics, program Language Science & Technology (summer semester 2010)
- Charles University in Prague, Faculty of Mathematics and Physics, Computer Science (bachelor), program Programming (2004 – 2008)
- High School with Polish Language of Instruction, Āesky Těřin (2000 – 2004)

## **Project experience**

My project experience is mainly based on creation and administration of websites. I prefer to work as a website programmer, but sometimes I also participate as a webdesigner.

My most significant projects include:

- from 2005 to 2009 – creation and administration of several websites for Vinis Ltd. (including eshop)
- from 2008 to 2010 – creation and administration of an online version of „Głos Ludu“ newspaper (local newspaper for a Polish minority in Czech Rep.)
- since 2009 – creation and administration of podcasting service for Polish programs broadcasted by Czech Radio in Ostrava → [kwadrans.cz](http://kwadrans.cz)
- since 2010 – creation and administration of web presentation of Chata Pod Loučkou (offering accomodation in a stylish cottage) → [chatapodlouckou.cz](http://chatapodlouckou.cz)

## **Computer skills**

As a user I am:

- power user and advanced administrator of Microsoft Windows operating systems
- advanced user of operating systems from Linux family
- advanced user of OpenOffice suite
- familiar with Microsoft Office suite

As a programmer I have:

- advanced knowledge of PHP → recently I became a big fan of Nette framework
- very good knowledge of C/C++ and Python → I implemented my bachelor thesis in C++ (graded as excellent) and Python is my favourite programming language
- good knowledge of SQL → I develop mainly in MySQL, but I also used to program in PL/SQL
- base knowledge of Java and Perl

As a web developer I have:

- very good knowledge of (X)HTML and CSS
- good knowledge of JavaScript
- advanced knowledge of setting up and administration of Wordpress CMS (including creation of own themes and adjustment of existing themes and plugins)

As a computer linguist I have:

- practical experience with installation and employment of Moses (freely available toolkit for statistical machine translation)
- advanced knowledge of R programming environment (mainly for purpose of machine learning)

## Language skills

I speak fluent Czech and Polish and I have a good knowledge of English (both spoken and written).

## Other skills

*From 2005 to 2010 I have been participating in a leadership of students organization Sekcja Akademicka „Jedność“ (SAJ), which associates Polish students residing in Czech Republic. During first 2 years I have been leading Prague section, for next 3 years I led the whole organization.*

## Other

I own a driving license.
